

# Play a Game

**Start**

Put

in a

Get 18 red squares. Give one game board to each player.  
Play at the same time.

**Try**

Pick a tile. Look at the number. What if that number of ducks joined these ducks? How many ducks would there be?  
Say an addition sentence with the number in all.  
If you see the sum on your game board, cover it.  
Put the tile aside. Repeat until one player wins.

Four Corners		
14	8	13
15	10	7
9	12	11

Four Corners		
11	14	10
15	7	9
8	13	12

To win, be the first player to cover four corners.

**Try Again**
